

## Freier Loiser Grüner Veltliner 2014 harvest

### DISCOVERIES FROM LANGENLOIS

Every year, special project wines are produced at the Jurtschitsch winery under the name „Discoveries from Langenlois“ and bottled in small amounts. Each of these wines, of which often only a small barrel is created, begins in the mind. An idea, a thought in the search for diversity of flavors in wine.

Each generation of young winemakers has the task of rediscovering and interpreting their terroir personally, for themselves. The only constant is change. This is also true for the terroir: not only the climate in which our vines grow has changed in the last 40 years. Sensitive experiments in the vineyard and in the cellar have produced wines that often surprise us and sharpen our sensitivity to the varied expressions of terroir.

### The Making of the Wine

The other wine from Loiserberg.

A wine that didn't want to be as it should have been was given the freedom to be as it is. Unfined and unfiltered, bottled in spring 2016.

**Note:** Naturally cloudy.

Turn gently before opening, do not store above 20 ° C.

### J **FACTS**

Grape variety: 100% Grüner Veltliner  
Vineyard / Site: Loiserberg . ORGANIC  
ABV: 11.5%  
Ac: 6.5‰  
RS: 1.1g/l  
Ageing potential: 2024+
